SNS System Mobile App presentation
Our Services

SaaS based mobile applications development services on native as well as cross platform for Android/ iOS and any other platform.

In case you are looking forward to create an app which improves your productivity internally or want to put out an application for users to showcase your business capabilities, TEAM SNS can provide you the robust and scalable solution.
Team capability is not limited to technical skill sets only; we review each requirement and do offer our suggestions or technical consultancy to make project successful. Our proactive approach and all around effort to make project successful has always been admired by clients.

About SNS

• SNSSystem founded in 2003 by Sandeep Gupta.
• Sandeep has more than 24 years of experience in distributed high availability computing environment to provide SaaS application development services. Worked on AgileApps platform, C++, Java, Javascript languages, Mysql DB.
• We started working on LongJump (Now AgileApps) in 2011.
• We became partner of LongJump in 2012.
• Completed around 20 projects in LongJump/AgileApps.
• Very good understanding of PaaS and SaaS implementation.
• Expert in CRM based application implementation.
Projects

• Fuel aviation system
• Banking system
• Location based mobile app
